[1.19.4.8 NMAC - N, 4-30-12]

1.19.4.9 INSTRUCTIONS:

A. Records retention and disposition schedules identify the types of records maintained by by local government and educational institutions and specify a period of time which records must be retained. A retention period may be stated in terms of months or years and is sometimes expressed as contingent upon the occurrence of an event. There are several types of records retention and disposition schedules promulgated by the commission for state agencies. General schedules list records common to all agencies and executive schedules list records specific to an agency. Each record series will be represented in the format listed below.

(1) **Program** - describes the function of the records

(2) **Maintenance system** - describes how an agency files (organizes) records

(3) **Description** - describes the purpose and content of a record

(4) **Retention** - defines the length of time records must be kept before they are eligible for destruction or archival preservation.

B. For records of a general administrative nature, refer to the GRRDS, General Administrative, 1.15.3 NMAC.

C. For records of a financial nature, refer to the GRRDS, General Financial, 1.15.5 NMAC.

D. For records of a personnel nature, refer to the GRRDS, General Personnel, 1.15.7 NMAC.

E. For records of a medical nature, refer to the GRRDS, General Medical, 1.15.8 NMAC.

F. Retention periods shall be extended until six months after all current or pending litigation; current claims, audit exceptions or court orders involving a record have been resolved or concluded.

G. The descriptions of files are intended to be evocative, not complete. For example, there will always be some documents that are included in a file that are not listed in the description, and similarly, not every file will contain an example of each document listed in the description.

H. Confidentiality is denoted for files likely to contain confidential materials or information; however files without a confidentiality note may contain confidential or privileged information. Failure to include a

confidentiality note in the description of a record series does not waive confidentiality. Refer questions concerning the confidentiality of a file to legal counsel for the agency.

I. Records may be photographed, microfilmed, digitized or converted to computer output microfilm provided a microphotography plan has been approved by the state records administrator (Section 14-3-17 NMSA 1978). Such photographs, microfilms, photographic film or microphotographs shall be deemed to be an original record for all purposes, including introduction as evidence in all courts or administrative agencies (Section 14-1-6 NMSA 1978).

J. Public records placed on magnetic tapes, disks or other data processing media shall be retained for the length of time specified in records retention and disposition schedules and are subject to the same confidentiality and access restrictions as paper records. See also 1.13.70 NMAC, Performance Guidelines for the Legal Acceptance of Public Records Produced by Information Technology Systems.

K. Email is a transmission medium for content that may or may not be a public record. Email messages that contain information sent or received by an agency in connection with the transaction of official state business or in pursuance of law are public records and are subject to retention requirements established in records retention and disposition schedules. Email messages are required to be categorized, filed and retained on the basis of content (1.13.4 NMAC, Records Management Requirements for Electronic Messaging). The content of email messages may vary considerably; therefore, each email shall be evaluated to determine if it meets the definition of a public record as defined in the Public Records Act. Non-records or transitory emails that do not provide evidence of official agency policies or business transactions may be deleted.

L. Non-scheduled public records created by an agency in pursuance of law or in connection with the transaction of public business shall have a retention period of permanent until such time the non-scheduled record has been scheduled and a retention period adhering to operational, legal, fiscal, historical or other purposes is established.
