

Fruit Preservation Workshop

Let's Get Jammin'

Friday, September 17, 2021

Rio Arriba County Cooperative Extension

Rural Events Center Multi-Purpose Building 10 am – 1 pm

Join us for a FREE hands on workshop to preserve your fruit harvest
We hope to present this workshop in-person, but may have to comply with the Governors' orders, to be updated on Wednesday, September 15th. If classes can't be held in-person, we will present them virtually via a Zoom link.

You'll learn techniques of fruit preservation and will participate in making jam using the boiling water canning method, using evidence and research based NMSU Cooperative Extension methods, to safely put up your own produce. All materials and fruit will be provided. Workshop will be lead by Desaree Jimenez, Los Alamos County FCS Agent, and Joy Czmyrid, Rio Arriba County FCS Agent.

If you are an individual with a disability who is in need of an auxiliary aid or service to participate, please contact Joy Russell Czmyrid in advance at (505) 685-4523 or jczmyrid@nmsu.edu.
