COURSE DESCRIPTION:

Part 1: Septic System Operation & Maintenance | 10:00am - 12:00pm

This webinar will educate owners on proper operation and maintenance of septic systems, common troubleshooting, preventive maintenance, and solutions. We will also discuss the benefits of establishing long term solutions such as On-Site Wastewater Management Programs.

Part 2: Environmental Health Professionals & Private Well Owners | 1:00pm - 3:00 pm

Do you want to improve your knowledge of private well systems or water treatment available for homeowners? This course is ideal for Environmental Health Professionals, who want a better understanding of well systems, how to perform a well assessment and better understanding of source water protection for private well owners.

Certificates for contact hours are available through your profile.

This workshop will be held on the **GoToTraining** platform.
